

## Local Plan Consultation

### Comments from RushbrookwithRougham Parish Council

RushbrookwithRougham Parish Council has concerns that West Suffolk Council and Mid Suffolk District Council have not produced a complete traffic assessment on the cumulative impact of new developments across two boundaries, particularly relating to the recent growth in Thurston.

A strategic traffic assessment should be included as part of the Local Plan. We believe this is a fundamental error.

We further believe the Plan has not taken into account the very rapid expansion of housing development in Thurston and consequently the impact on infrastructure has not been appropriately assessed.

#### Rougham Air Field

Regarding 'North of Mount Road (WSO44) this additional land is leading to ribbon development along Mount Road giving concerns to future sprawl and coalescent to Thurston.

The Parish Council is disappointed that the historical importance of a WW11 airfield at Rpuham has not been recognized.
